

CMCOG 208 Conformance Fee Increase

Beginning August 1, 2010, Central Midlands Council of Governments will raise the 208 conformance review fee to \$75.00. The purpose of this fee increase is to help defray the cost of administering the 208 Water Quality Management program that is not met by DHEC funding. The additional revenue will also be used to help pay for future 208 Plan updates.

The \$75.00 processing fee will be charged for all 208 conformance requests. The only exception will be for multi-phase residential developments – a \$75.00 fee will be charged for Phase 1 only; there will be no additional charge for subsequent phases.

If you have any questions or need additional information please contact Gregory Sprouse, Principal Planner at gsprouse@cmcog.org.
