## *1.1 Central Midlands Area Agency on Aging Overview*

---

This directory is designed to assist in identifying supportive services for you and your family need to maintain independence in the later years. Searching out this information for a parent, loved one, or for yourself can become a trying experience if you are not sure who to contact. We hope this directory will help.

The Central Midlands Area Agency on Aging / Aging & Disability Resource Center (AAA/ADRC) does not warrant any agency or organization listed, nor claims that they possess any particular level of competence or skill. Any exclusion of an agency offering services to the elderly is unintentional.

Central Midlands Area Agency on Aging is a special designation conferred by federal and state government that identifies the lead agency in the region responsible for planning and implementing community-based services for older people (60+). Local governments who appoint the governing board of elected officials and citizen members created Central Midlands that has been planning programs for seniors since 1975. Working with a professional planning staff and its Regional Aging and Disability Advisory Committee (RADAC), the Board carries out the Federal, State, and Local mandate of creating a sound service system to meet the region growing older population.

A majority of the aging services are funded by federal grants/funds through the 1965 Older Americans Act. This law required that planning and service districts be designated to plan and implement aging services.

The Lt. Governor's Office on Aging has divided the state into ten planning and service districts. Central Midlands Area Agency on Aging was designed in 1976.

The mission of the Area Agency on Aging is to plan programs and services for the growing population of older people in Fairfield, Lexington, Newberry and Richland Counties.

The agency contracts with local contractors for delivery of services. The Regional Aging and Disability Advisory Committee (RADAC), consisting of older individuals who are participants or who are eligible to participate in Older Americans Act programs, representatives of older persons, persons with disabilities and the general public, assists the Council of Governments in fulfilling the responsibilities of the Area Agency on Aging.

The Central Midlands Area Agency on Aging transitioned into the Central Midlands Aging and Disability Resource Center (ADRC) on September 9, 2009. South Carolina initiated the establishment of ADRC's in 2003 with a commitment of three-year funding from the State Unit on Aging and expanding to five regions. In the 2009-2010 Fiscal year, the State unit on Aging committed three-year funding to the remaining five regions of South Carolina, including Central Midlands.

## ***2.5 South Carolina Long Term Ombudsman Program***

---

### **The Long-Term Care Ombudsman Program**

The Central Midlands Long-Term Care Ombudsman Program investigates, mediates and advocates concerns/complaints on behalf of residents/vulnerable adults in long-term care facilities. They investigate or cause to be investigated, reports of abuse, neglect and exploitation of residents. The Ombudsman Program advocates to improve the quality of care and the quality of life of residents in facilities. A Long-Term Care Ombudsman also assist in resolving concerns/complaints related to Resident Rights to include issues involving a lack of dignity, respect, improper transfers and discharges. They provide education to the community and facility staff related to long-term care issues. Whether through systemic advocacy or individual efforts, the Ombudsman Program makes a difference in the lives of residents in long-term care facilities.

The Ombudsman Program is governed by the Federal Older Americans Act and by the South Carolina Omnibus Adult Protection Act. The South Carolina Lt. Governor's Office on Aging administers the statewide program.

### **The Volunteer Ombudsman Program**

A Volunteer Ombudsman makes regular visits to facilities to talk with residents and their families. They provide information related to Resident Rights, the Long-Term Care Ombudsman Program and make observations. The Volunteer Ombudsman Program recruits and trains volunteers so their role is clearly explained. A Volunteer Ombudsman is not a Certified Long-Term Care Ombudsman. They are trained to report all problems/concerns/complaints to the Long-Term Care Ombudsman Program.

**For additional information about the Central Midlands Long-Term Care Ombudsman Program, please call (803) 376-5389 or 1-800-391-1185.**

If you or a loved one ever receive a letter or telephone call announcing you have won the lottery or a sweepstakes contest – **DO NOT PROVIDE ANY PERSONAL OR FINANCIAL INFORMATION.**

### Examples of Scams Targeting Senior Citizens

#### Medicare Discount Card Scams

The Medicare discount drug card is available to people enrolled in Medicare, but not everyone on Medicare is eligible. If you are in a state Medicare program that provides drug coverage, you cannot get a Medicare discount drug card.

Often scam-artists will call, email, or knock at your door to sell you this card. If they do so, it is a scam. Under the program, companies are allowed to advertise their cards by mail, TV, radio and newspapers or other print media. They, however, are not allowed to call, send emails, nor do home visits unless YOU ask them.

You can protect yourself and your loved ones from such scams by visiting the Medicare Web site, [www.medicare.gov](http://www.medicare.gov), to access a list of approved cards and other information or call toll-free, 800-633-4227. AARP also has helpful information at [www.aarp.org](http://www.aarp.org).

#### Charity Scams

Older Americans are very generous in helping others. However, there are many people looking to exploit the senior citizens' good nature. The elderly are often asked by professional con artists to supply credit card information to help the victims of a recent natural disaster. In addition to credit card fraud, senior citizens also are asked to provide their sensitive personal financial information including bank account numbers and Social Security numbers.

## ***3.6 Senior Scams & Frauds***

---

### **Prizes & Sweepstakes Scams**

Senior citizens are the “high value” targets in this scheme. Many times scam artists will ask that seniors put down an advance payment to guarantee prize “winnings.” Others will ask that the senior citizen provide personal information before receiving “winnings.” These should be signs to avoid the questionable businesses or persons. The bottom line is, if the offer sounds too good to be true, it probably is.

### **Counterfeit Drug Scams**

Due to the nature of aging, seniors are again the main target for these types of scams. The biggest potential these types of senior drug scams offer is through online “pharmacies.” Many of these online pharmacies will advertise cheaper, yet more effective, medications than the reputable pharmacy provides you. When the drugs arrive, they are often useless knockoffs.

### **Funeral & Cemetery Fraud**

Unfortunately, death is a part of life and often on the minds of senior citizens. It is also on the minds of those who seek to target the senior citizens’ money through scams. This may come from vendors who insist that embalming or having a casket is part of the cremation process. It is often a result of vendors selling expensive and unnecessary funeral services.

### **Telemarketing Fraud**

According to the FBI, individuals 60 years or older are prime targets for telemarketing fraud. Predators will often offer senior citizens a “free” or “low cost” vacation as long as you “act now.” If you hear such lines as the ones above, hang up. There are numerous other examples of telemarketing fraud that target the elderly.

### **Magazine Subscription Scams**

Seniors are often the targets of magazine subscription scams. Beware of telephone calls from people who offer “free” or “special” deals on particular magazines. These magazine scam artists may offer seniors a subscription for “dollars a day” that last for multiple years without telling them the important details.

### **Nigerian Letter or “419” Fraud**

Nigerian letter frauds target seniors due to the trusting nature of the aging population. These letters offer the “opportunity” to share some percentage of millions of dollars, which the author, usually some sort of government official, is trying to transfer to America and to you and your bank account specifically.

### **Identity Theft**

Identity theft occurs when someone assumes your identity in order to use your name or other personal information to perform a fraud or other criminal act.

Criminals can receive personal information through your wallet, trash, or from your credit cards or bank account numbers. Your Personal information is so abundant that you may not be able to prevent the theft of your identity. However, you can take steps to minimize your risk.

### **Jury Duty Scam**

This has been verified by the FBI ([see FBI article](#)). Please pass this on to everyone in your email address book. It is spreading fast so be prepared should you get this call. Most of us take those summonses for jury duty seriously, but enough people skip out on their civic duty, that a new and ominous kind of fraud has surfaced.

The caller claims to be a jury coordinator. If you protest that you never received a summons for jury duty, the scammer asks you for your Social Security number and date of birth so he or she can verify the information and cancel the arrest warrant. Give out any of this information and bingo; your identity was just stolen.

The fraud has been reported so far in 11 states, including Oklahoma, Illinois, and Colorado. This (swindle) is particularly insidious because they use intimidation over the phone to try to bully people into giving information by pretending they are with the court system. The FBI and the federal court system have issued nationwide alerts on their web sites, warning consumers about the fraud.

### **Cell Phone Kiosk Scam**

Cell Phone kiosks in malls offer a variety of products and services for many of the national cell phone services. However, not all of these kiosks are actually company owned. Many of them are “authorized resellers” of national product lines. This means that while they can use the trademark names, advertising, and offer the services and products of a nationally known company, they are not a company store.

While company stores often offer discounts and special incentives, resellers do not have to extend the same pricing to their customers. For example, a reseller may offer a phone for several hundred dollars and suggest that this is a great price, with rebates that the customer must file and then wait for payment. The national chain store may offer the same service contract pricing and sell the same phone for several hundred dollars less.

Often, kiosks are operated by high pressure salespersons that make their offers sound very attractive and pressure the consumer to make a decision “now.” They depend on people buying on impulse. Once the customer signs the contract and learns that they have paid more than the company rate, they cannot terminate the contract without paying a high non-refundable penalty.

### **Tips for seniors – Be Smart**

- ❖ **Know your Finances and Medical Services**
- ❖ **Keep Track of your Medical / Financial records**
- ❖ **Know where and how long to keep your records**
- ❖ **Let someone you trust know where and how you file your important records**
- ❖ **Never give your personal medical / financial information to people you do not know!**
- ❖ **Know where to report any fraud or scam**
- ❖ **Keep track of your medical appointments & billing**

## 4.7 Geriatric Care Managers

---

*A Geriatric Care Manager is a health and human services specialist who acts as a guide and Advocate for families who are caring for older relatives or disabled adults. The Geriatric Care Manager is educated and experienced in any of several fields related to care management, including, but not limited to nursing, gerontology, social work, or psychology, with a specialized focus on issues related to aging and elder care.*

### Discussing Fees:

*There are many ways of charging fees and each Aging Life Care Professional works differently. You will need to know how often she/he bills. Some bill weekly, some bill monthly, and some bill upon completion of work. Ask about these matters at the initial conference and ask for them in writing, so there will be no surprises. If you don't understand, ask again. If you need clarification, say so. It is very important that you feel comfortable regarding your financial obligations.*

Under Project H.O.P.E., these dedicated workers call and visit senior citizens and disabled citizens each month. Other Volunteers make weekly calls to everyone.

This is another way of staying in touch, and to find out if there is anything we can do for them. These retired law enforcement officers also visit many senior centers, numerous church, and community groups.

During their visits to the home, our officers perform a variety of functions. They conduct safety checks of the home, such as putting in smoke detectors or replacing smoke detector batteries. They also put street numbers on their homes so emergency personnel and other programs, like Meals on Wheels, can easily find them. If you would like to volunteer to help in Project Hope, you may call Bill Brown at 576-3183
